
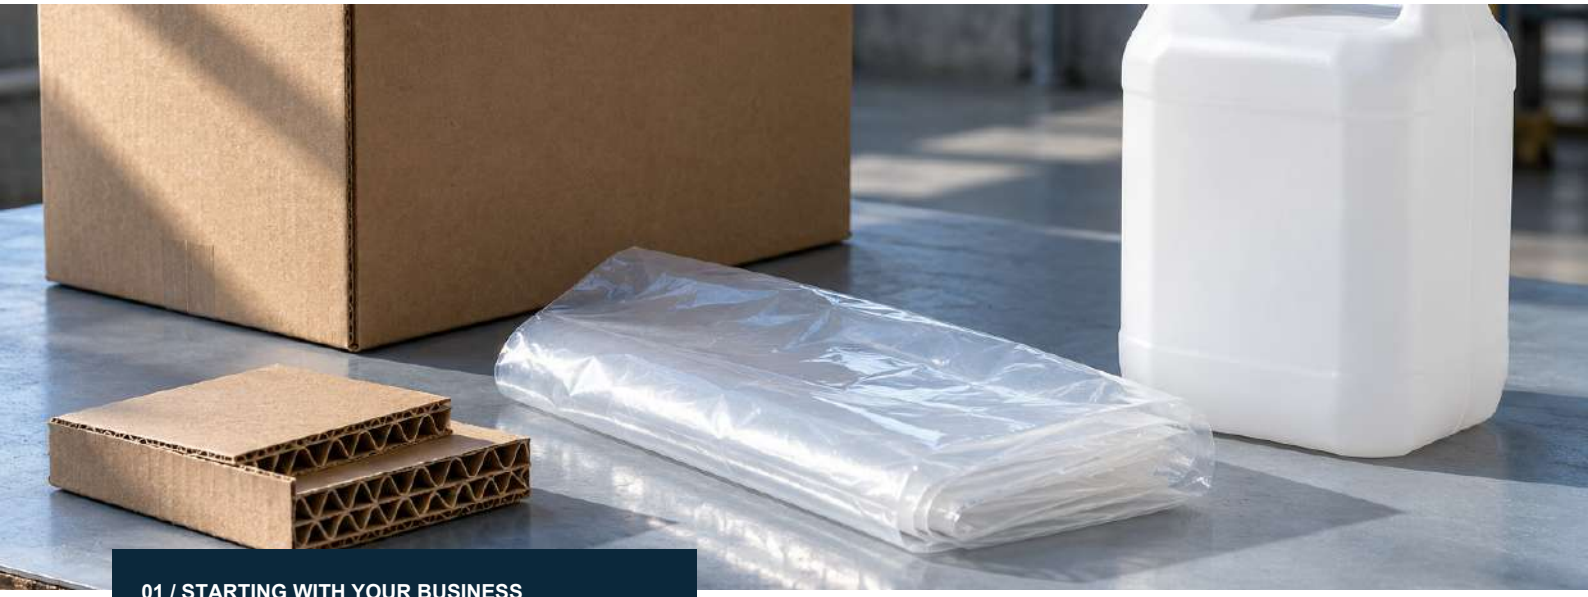
PPWR and Packaging EPR Exposure Map

Your role.
Your responsibilities.

Your regulatory position, clearly explained.

1 tax ID · 1 production site · EU scope

EPR · Extended Producer Responsibility
PPWR · EU Packaging and Packaging Waste Regulation



01 / STARTING WITH YOUR BUSINESS

What is your role under the regulations?

01

Which products and packaging?

We identify the packaging you receive, use and place on the market in the activities under review.

02

How do you receive goods?

We review how raw materials and products reach you, and who supplies them.

03

For own use or resale?

We distinguish what you use in your business from what you sell or incorporate into other products.

04

Who do you sell to?

We assess whether you sell to distributors, other businesses or directly to consumers.

05

Where from, and where to?

We identify the origin and destination of your transactions to assess your role within the EU.

06

Whose brand do they carry?

We review the brands on packaging and packaged products, and your company's involvement.

The analysis focuses on the PPWR and packaging EPR.

02 / WHAT YOU RECEIVE

Your regulatory role. The responsibilities that come with it.

An exposure map linking the activities under review to the roles defined in the regulations and your responsibilities. We explain the findings in a meeting.

01 Which roles apply to you

We identify whether your company qualifies as a producer, manufacturer, importer or distributor under the regulations and for the transactions reviewed.

02 Why those roles apply

We explain the facts about your activities and the regulatory criteria behind each role. We highlight what cannot be concluded from the available information.

03 What your role entails

We identify the responsibilities arising from your applicable roles under the PPWR and packaging EPR.

The result: your regulatory position.

We explain your role and the responsibilities that apply to you.

03 / SERVICE SCOPE

One tax ID. One site. European Union scope.

One tax ID

We analyse one legal entity, identified by its Spanish tax ID (CIF). Other companies in the group are excluded.

One site

The analysis covers one production site. Before starting, we identify the site and the activities to review.

EU only

The geographical scope is limited to the European Union. We define the transactions and EU countries to be assessed. Non-EU regulatory frameworks are excluded.

What's included

Gathering information on your activities, assessing your regulatory position, preparing the exposure map and meeting to explain the findings.

Need further support? RAP PARTNER

For support after your exposure map, discover RAP PARTNER. We prepare a proposal tailored to your needs, with a separate scope and contract.
